## TITLE 7—AGRICULTURE

### Chapter IX—Production and Marketing Administration (Marketing Agreements and Orders), Department of Agriculture

#### PART 904—MILK IN GREATER BOSTON MARKETING AREA

##### DETERMINATION OF EQUIVALENT PRICE

Notice was published in the April 8, 1950, issue of the FEDERAL REGISTER (15 F. R. 2026) regarding the determination of a price equivalent to or comparable with the weighted average price per 40-quart can of 40 percent bottling quality cream, f. o. b. Boston, referred to in § 904.7 (b) (1) and § 904.9 (d) of the order, as amended, regulating the handling of milk in the Greater Boston, Massachusetts, marketing area, to become effective pursuant to § 904.7 (f) of said order, as amended, for any price reporting period in which such weighted average price is not reported by the United States Department of Agriculture. This is a regulatory program effective by virtue of the applicable provisions of the Agricultural Marketing Agreement Act of 1937, as amended (7 U. S. C. 601 et seq.). Pursuant to said notice, a public meeting was held in Room 403, 320 Congress Street, Boston, Massachusetts, at 10 a. m., on April 11, 1950, at which time interested persons submitted oral and written data, views and arguments with respect to the determination under consideration.

After consideration of the oral and written data, views and arguments presented, and other relevant material, it is hereby found and determined, that the price equivalent to or comparable with the weighted average price per 40-quart can of 40 percent bottling quality cream f. o. b. Boston, referred to in § 904.7 (b) (1) and § 904.9 (d) of said order, if, for any reason, such price is not reported by the United States Department of Agriculture for any price reporting period, shall be as follows:

Compute the average of the prices reported daily by the United States Department of Agriculture for Grade A (92-score) butter sold wholesale at Chicago, using the midpoint of any range as one price, add 14.65 cents and multiply by 33.48.

In accordance with section 4 of the Administrative Procedure Act (5 U. S. C. 1001 et seq.), it is hereby found and determined that good cause exists for not postponing the effective date of this determination of equivalent or comparable price until 30 days after its publication in the FEDERAL REGISTER in that it must become effective immediately in order to facilitate, promote and maintain the orderly marketing of milk in the Greater Boston, Massachusetts, marketing area, and the changes effected by this determination do not require any preparation by the persons affected prior to its effective date.

(Sec. 5, 49 Stat. 753, as amended; 7 U. S. C. and Sup., 608c)

Issued at Washington, D. C., this 20th day of April 1950, to become effective immediately.

Secretary of Agriculture.

handling of milk in the Worcester, Massachusetts, marketing area.

The respective orders provide that if a price for any milk product specified by those orders for use in computing class prices and for other purposes is not reported or published in the manner described in the respective orders, the market administrator shall use a price determined by the Secretary to be equivalent to or comparable with the price which is specified. (§§ 934.6 (f), 947.14; 996.7 (e), and 999.7 (e), of the respective orders.)

Pursuant to the applicable provisions of the respective orders and on the basis of available information, it is hereby found and determined that the price equivalent to or comparable with the weighted average price per 40-quart can of 40 percent bottling quality cream f. o. b. Boston, referred to in each of the aforesaid sections of the respective orders, shall be as follows if, for any reason, such price is not reported by the United States Department of Agriculture for any price reporting period:

Compute the average of the prices reported daily by the United States Department of Agriculture for Grade A (92-score) butter sold wholesale at Chicago, using the midpoint of any range as one price, add 14.65 cents and multiply by 33.48.

In accordance with section 4 of the Administrative Procedure Act (5 U. S. C. 1001 et seq.), it is hereby found and determined that it is impracticable, unnecessary and contrary to the public interest to give preliminary notice, to engage in public rule making and to postpone the determination of equivalent price until 30 days after publication thereof in the FEDERAL REGISTER because it must become effective immediately in

order to facilitate, promote and maintain the orderly marketing of milk for the Lowell-Lawrence, the Fall River, the Springfield and the Worcester, Massachusetts, marketing areas. The changes effected by this determination do not require any preparation by the persons affected prior to the effective date.

(Sec. 5, 49 Stat. 753, as amended; 7 U. S. C. and Sup., 608c)

Issued at Washington, D. C., this 20th day of April 1950, to become effective immediately.

# PART 947—MILK IN FALL RIVER, MASS., MARKETING AREA

## ORDER SUSPENDING CERTAIN PROVISIONS

Pursuant to the applicable provisions of the Agricultural Marketing Agreement Act of 1937, as amended (7 U. S. C. 601 et seq.), hereinafter referred to as the "act" and of the order, as amended, regulating the handling of milk in the Fall River, Massachusetts, marketing area, hereinafter referred to as the "order", it is hereby found and determined, that:

(1) The provision appearing in § 947.6 (c) of the order, reading as follows: "or the last such price reported for a delivery period if no such price is reported for the period between the 16th day of the preceding month and the 15th day inclusive of the delivery period during which such milk is delivered", does not tend to effectuate the declared policy of the act with respect to milk received from producers supplying the Fall River marketing area.

(2) In accordance with the Administrative Procedure Act (5 U. S. C. 1001 et seq.), notice of proposed rule making, public procedure thereon and publication or services of this suspension order 30 days prior to its effective date hereby are found to be impracticable, unnecessary and contrary to the public interest in that it is imperative to issue this suspension order immediately to reflect current marketing conditions and to facilitate, promote and maintain the orderly marketing of milk produced for the Fall River, Massachusetts, marketing area. The changes effected by this suspension do not require of persons affected, any preparation prior to its effective date.

It is therefore ordered, That the provision appearing in § 947.6 (c) of the order, reading as follows: "or the last such price reported for a delivery period if no such price is reported for the period between the 16th day of the preceding month and the 15th day inclusive of the delivery period during which such milk is delivered", be and hereby is suspended.

(Sec. 5, 49 Stat. 753, as amended; 7 U. S. C. and Sup., 608c)

Issued at Washington, D. C. this 20th day of April 1950 to become effective immediately.

# TITLE 8—ALIENS AND NATIONALITY

## Chapter I—Immigration and Natural- ization Service, Department of Jus- tice

### Subchapter B—Immigration Regulations

#### PART 124—ALIEN CONTRACT LABORERS

#### EXEMPTION OF ALIEN PROFESSIONAL SINGERS FROM CONTRACT LABOR LAWS

APRIL 14, 1950.

Reference is made to the notice of proposed rule making which was published in the FEDERAL REGISTER of January 19, 1950 (15 F. R. 326), pursuant to section 4 of the Administrative Procedure Act (60 Stat. 238; 5 U. S. C. 1003) and in which there were stated in full the terms of a proposed amendment of the rules relating to the exemption of certain alien professional singers from the contract labor laws. No representations have been received concerning the proposed amendment. The rule, as stated below, is hereby adopted. The provisions of the adopted rule are the same as those stated in the notice of proposed rule making.

Paragraph (c) of § 124.2 *Exemptions of certain aliens from contract labor; definitions*, Chapter I, Title 8 of the Code of Federal Regulations, is amended so that when taken with the introductory sentence it will read as follows:

§ 124.2 *Exemption of certain aliens from contract labor; definitions*. Aliens falling within the purview of § 124.1 may be admitted to the United States, upon presenting satisfactory evidence that they are:

(c) Professional singers: *Provided*, That an alien who comes to the United States to sing and to play a musical instrument, either singly or in concert with others, shall not be considered as a professional singer unless his playing of the musical instrument is limited to incidental self-accompaniment;

The rule stated above shall become effective on the thirty-first day following its publication with this order in the FEDERAL REGISTER.

The general basis for the rule is the determination that it is advantageous to the Government and to persons concerned to define fully the conditions under which alien professional singers may be considered exempt from the contract labor laws and admitted to the United States. The purpose of the rule is to deny such exemption from the contract labor laws to singers who come to the United States both to sing and to play a musical instrument, unless the playing of the musical instrument is limited to incidental self-accompaniment.

(Sec. 23, 39 Stat. 892, sec. 24, 43 Stat. 166, sec. 37, 54 Stat. 675; 8 U. S. C. 102, 222, 458)

Commissioner,

## TITLE 18—CONSERVATION OF POWER

### Chapter I—Federal Power Commission

[Docket No. R-114, Order 152]

#### PART 34—APPLICATION FOR AUTHORIZATION OF THE ISSUANCE OF SECURITIES OR THE ASSUMPTION OF LIABILITIES

#### REQUIREMENTS FOR PUBLIC INVITATION OF PROPOSALS FOR PURCHASE OR UNDERWIT- TING OF SECURITIES

APRIL 18, 1950.

In this proceeding the Commission has under consideration the amendment of Part 34 of its general rules and regulations, pertaining to applications for authorization and approval under section 19, 20 or 204 of the Federal Power Act in respect of issuance of securities or assumption of obligation or liability with respect to securities of another person to broaden and make more specific the requirements with respect to competitive bidding for the purchase or underwriting of such securities.

General public notice of the proposed amendments has been given, including publication of notice of proposed rule-making in the FEDERAL REGISTER on February 7, 1950 (15 F. R. 664), mailing notices to public utilities (within the meaning of the Federal Power Act), licensees, state commissions, and other interested persons, supplying 75 copies thereof for the use of the National Association of Security Dealers. The notices set forth the authority for the proposed amendments, the contemplated terms of the amendments, and stated that interested persons might submit views and comments in writing on or before March 1, 1950.

Five written responses to the notice were received containing a number of helpful suggestions for changing and clarifying the language of certain of the amendments proposed, or endorsing the amendments as proposed. None were adverse to the proposed amendments and no request was made for a hearing.

The Commission has considered the proposed amendments and the comments thereon in the light of its own experience under the present rules and the experience of the Securities and Exchange Commission with competitive bidding requirements. Many of the changes suggested have been adopted, with or without modification. Others have not been adopted, such as one suggestion for specification that notice of the invitation for bids be published in a newspaper, and a distinction be spelled out between the contents of such newspaper notice and contents of the invitation itself. The Commission concluded that the rule should be cast in the terms originally proposed, that bids "shall have been publicly invited," leaving it to the applicant in each case to spell out in its application the specific procedures by which it proposes to meet the substantive requirement, subject of course to such order as the Commission may enter on the application. The essentiality of the requirement of public invitation is publicity to that portion of the public that is or may be interested in the under-

writing or purchase of the securities. The Commission concluded that the originally proposed language would be a more effective guarantee of such publicity than specification in the rules of the usual newspaper publication.

The Commission finds:

(1) That oral presentation of data, views, or argument, or any form of public hearing or further public procedure is unnecessary and would not serve the public interest.

(2) The proposed amendments with changes therein, as set forth hereinafter, are necessary and appropriate for the purposes of the Federal Power Act.

Pursuant to the authority vested in it by the Federal Power Act (41 Stat. 1063, 49 Stat. 847, 16 U. S. C. 791-825r), and particularly sections 19 and 20 (41 Stat. 1073, 16 U. S. C. 812, 813), section 3 (16) (41 Stat. 1063, 49 Stat. 838, 16 U. S. C. 796), sections 204, 305, 308 and 309 (49 Stat. 850, 856 and 858, 16 U. S. C. 824c, 825d, 825g and 825h), thereof, and subject to the provisions of section 4 of the Administrative Procedure Act (60 Stat. 238, 5 U. S. C. 1003), the Commission orders that the general rules and regulations be amended as follows:

1. Add a new § 34.1a to follow § 34.1 in Part 34, Subchapter B, Chapter I, Title 18; Code of Federal Regulations, to read as follows:

§ 34.1a *Requirement of public invitation of proposals for the purchase or underwriting of securities*—(a) *Scope of this section.* This section shall apply to every issuance of a security, or securities, and assumption of obligation or liability as guarantor, endorser, surety, or otherwise, in respect to any security, or securities, of another person, for which Commission approval must be obtained, under the Federal Power Act, except where:

(1) Such securities are to be issued pro rata to existing holders of securities of the applicant or issuer pursuant to any preemptive right or in connection with any liquidation or reorganization; or

(2) Such securities consist of one or more bonds, notes, or other evidence of debt, of a maturity of five years or less, to a commercial bank, insurance company, or similar institution not for resale to the public, provided no finder's fee or other fee, commission or remuneration is to be paid in connection therewith to any third person (except an associated service company charging only its costs of service) for negotiating the transaction; or

(3) The proceeds, to the issuer, of the securities will be less than \$1,000,000; or

(4) The Commission, on application filed pursuant to § 34.2 (k) (2) (ii), finds that compliance with the competitive bidding requirements of paragraphs (b) and (c) of this section would not be appropriate to aid the Commission to determine whether any fees, commissions, or other remuneration to be paid, directly or indirectly, in connection with the issue, sale, or distribution of such securities, or whether such issue or sale, or any term or condition of such issue or sale, is not consistent with the public interest. Such findings will be made only where the issuer has not engaged

in negotiating for the sale or underwriting of the securities without having been authorized in writing by the Commission prior to such negotiation. Nothing in this section shall be deemed to preclude the Commission from entering any order which would otherwise be appropriate under applicable provisions of the act.

(b) *Public invitation for proposals.*

The Commission will not grant any application for authorization and approval under section 204 (a) of the Federal Power Act unless, at least one week, or such other period as the Commission may by order fix, prior to entering into any contract or agreement for the issuance or sale of any security, or assumption of obligation or liability as guarantor, endorser, surety, or otherwise, in respect of any security of another person, sealed, written proposals for the purchase or underwriting of such securities shall have been publicly invited and the requirements of paragraph (c) of this section complied with. Such invitation shall, among other things, describe the arrangements made for independent counsel for bidders. No bid shall be invited, or accepted, from any person who, prior to the submission of bids, has performed any service for compensation in connection with the proposed securities or who has or will receive any fee or compensation in connection with the proposed securities, nor shall any bid be invited or accepted involving a violation of section 305 (a) of the Federal Power Act, prohibiting officers and directors benefiting from or sharing in proceeds of securities. Such proposals as may be received in response to the public invitation shall not be opened at any time or place other than as specified in the invitation. The duly authorized representative of any person making any such proposal shall be entitled to be present at the opening of such proposals and to examine each proposal submitted. The invitation shall refer to the limitations herein prescribed.

(c) *Statement of compliance and of action proposed.* As promptly as practicable after the opening of the proposals the applicant shall file an amendment to its application setting forth:

(1) The action taken to comply with paragraph (b) of this section, including a statement that the proposed method of complying with the competitive bidding requirements as described in the application pursuant to the requirements of § 34.2 (k) (2) (i) has been carried out with no departures except such as shall be fully stated.

(2) A summary of the terms of the proposals received, including the name of each bidder or representative of a bidding group, the interest or dividend rate specified (where applicable), the price to be paid the issuer per share or per \$100 principal amount, the cost of money to the issuer (except in the case of common stock), the name of the successful bidder, and the successful bidder's initial public offering price with the resulting yield to the public (except in the case of common stock), accompanied by a copy of each proposal received (to be submitted as part of Exhibit L to the application).

(3) A statement of the action proposed to be taken with respect to the issuance and sale of securities, and, in any case in which securities are to be issued by a person other than the applicant, a statement of the action to be taken by the applicant with reference to the assumption of obligation or liability in respect thereto.

2. Amend paragraph (k) of § 34.2, to read as follows:

(k) A description of the method of issuing and selling the securities to be issued by the applicant or in respect of which the applicant is to assume any obligation or liability as guarantor, indorser, surety, or otherwise.

(i) Such description shall include a statement of whether:

(i) Such securities are to be issued pro rata to existing holders of securities of the applicant or issuer pursuant to any preemptive right or in connection with any liquidation or reorganization.

(ii) Such securities consist of one or more bonds, notes, or other evidences of debt, of a maturity of five years or less, to a commercial bank, insurance company, or similar institution not for resale to the public, provided no finder's fee or other fee, commission or remuneration is to be paid in connection therewith to any third person (except an associated service company charging only its costs of service) for negotiating the transaction.

(iii) The proceeds, to the issuer or vendor, of the securities will be less than \$1,000,000.

(iv) The proposed issuance of securities, or assumption of obligation or liability, by the applicant, has been exempted by the Commission from the competitive bidding requirements of § 34.1a (b) and (c) by findings as referred to in § 34.1a (a) (4), or is the subject of an application for such exemption under subparagraph (2) (ii) of this paragraph, which application has not been denied by the Commission.

(2) Except where the issuance of securities or assumption of obligation or liability falls within subparagraph (1) (i), (ii) or (iii) of this paragraph, the application shall either:

(i) Set forth the proposed method of complying with the competitive bidding requirements of § 34.1a (b) and (c), including summarization of the principal terms of the proposed invitation for bids and submitting a copy of the proposed invitation as part of Exhibit L to the application; or

(ii) Apply for exemption from the competitive bidding requirements of § 34.1a (b) and (c) upon findings as referred to in § 34.1a (a) (4). Such an application may be made only where the issuer has not, prior to the filing of the application, engaged in any negotiation for the sale or underwriting of the securities and engages not to do so prior to Commission action on the application for exemption, and the application so shows: *Provided*, That engaging in negotiation may be permitted where the Commission has given its written authorization in advance. Such application for exemption may be filed as part of an application for securities approval, or as a separate application filed at any time prior to the filing of such an

application for securities approval. (If separately filed, such separate application shall, nevertheless, be subject to the provisions of §§ 34.4 to 34.7.) Such application for exemption shall show the specific grounds relied on as warranting the findings referred to in § 34.1a (a) (4). If an application for such exemption is denied by the Commission after the application for securities approval has been filed, the requirements of subdivision (i) of this subparagraph shall be complied with by amendment to the application.

(3) Where no application has been filed for exemption from the competitive bidding requirements of § 34.1a (b) and (c), or the Commission has denied such an application, applicant shall set forth by amendment to the application, the data with respect to compliance with the competitive bidding requirements and its proposed action, as required by § 34.1a (c).

(4) There shall also be set forth in the application or amendment thereto:

(i) The name and address of any person receiving or entitled to a fee for services (other than attorneys, accountants and similar technical services) in connection with the negotiation or consummation of the issuance or sale of securities, or for services in securing underwriters, sellers, or purchasers of securities, other than fees included in any competitive bid; the amount of each such fee; and facts showing the necessity of the services and that the fee does not exceed the customary fee for such services in arm's-length transactions and is reasonable in the light of the cost of rendering the service and any other relevant factors.

(ii) All facts showing or tending to show that the issuer or applicant directly or indirectly controls, or is controlled by, or is under the same common control as, any person named pursuant to the requirements of subparagraph (3) of this paragraph and subdivision (i) of this subparagraph, or showing or tending to show the opposite. "Control" is used herein as defined in § 101.02-5B of this chapter.

3. Amend the paragraph entitled Exhibit L under § 34.3 to read as follows:

*Exhibit L.* Copies of the proposed and of the published invitation of proposals for the purchase or underwriting of the securities to be issued, of each proposal received, and of each contract, underwriting, and other arrangement entered into for the sale or marketing of the securities. Where a contract or underwriting is not in final form so as to permit filing, a preliminary draft or a summary containing such identification of the parties thereto and such setting forth of the principal terms thereof as may be practicable, may be filed, pending filing of conformed copy in the form executed by final amendment to the application.

4. Amend § 34.9 to read as follows:

§ 34.9 *Commission action.* An application for approval under this part will ordinarily require a minimum of 30 days after it is filed to allow for public notice, investigation, opportunity for hearing, consideration by the Commission, and issuance of the first order referred to hereinafter. To facilitate the completion of registration statements filed with the Securities and Exchange Commis-

sion pursuant to the requirements of section 7 of the Securities Act of 1933 and sections 12 and 13 of the Securities and Exchange Act of 1934, so that public invitation for proposals for purchase or underwriting of the securities may be made, conformably to the provisions of those acts, this Commission will, where appropriate, authorize proposed issuances of securities and assumptions of obligation or liability, prior to the filing of the data referred to in § 34.1a (c) and 34.2 (k) (3) and (4) subject to a provision that the securities shall not be issued, or the obligation or liability assumed, by the applicant, until such amendment shall have been filed and a further order shall have been entered thereon. The Commission will endeavor wherever possible to enter such further order upon receipt of telephone advice and confirmation thereof by telegram from the applicant setting forth the substance of the data specified in § 34.2 (k) (3) and (4) and stating that the amendment furnishing such data has actually been mailed to the Commission. This two-order procedure will not obtain with respect to security issues exempted by § 34.1a (a) from competitive bidding requirements, except upon request.

5. The Secretary of the Commission shall cause prompt publication of this order to be made in the FEDERAL REGISTER.

#### STATION KWRZ AND FLAGSTAFF BROADCASTING CO.

#### ORDER DESIGNATING APPLICATIONS FOR CONSOLIDATED HEARING ON STATED ISSUES

In the matter of the renewal of license of Station KWRZ, Flagstaff, Arizona, Docket No. 9632, File No. BR-1555; in re application of Eugene C. Phillippi, Allan J. Gardner, Mary Jane Phillippi, and Anton S. Holm, a co-partnership d/b as the Flagstaff Broadcasting Company, Flagstaff, Arizona, for construction permit, Docket No. 9633, File No. BP-7479.

At a session of the Federal Communications Commission, held at its offices in Washington, D. C., on the 13th day of April 1950:

The Commission having under consideration the above-entitled application of Eugene C. Phillippi, Allan J. Gardner, Mary Jane Phillippi and Anton S. Holm, a co-partnership d/b as Flagstaff Broadcasting Company, requesting a construction permit for the frequency of 1340 kilocycles, 250 watts power, unlimited time, and the application, filed February 3, 1950, of James L. Stapleton, Duard K. Nowlin and Jesse M. Neil, Jr., a partnership d/b as Grand Canyon Broadcasting Company, requesting a renewal of license for the frequency of 1340 kilocycles, 250 watts power, unlimited time, at Flagstaff, Arizona; and

The Commission having under consideration the petition filed January 16, 1950 by Grand Canyon Broadcasting Company requesting the Commission to reconsider and set aside its directive of December 8, 1949 declaring the license of KWRZ forfeited as of December 19, 1949 and directing that the license be surrendered for cancellation; and

It appearing, that on December 8, 1949 the Commission directed a letter to Grand Canyon Broadcasting Company, which was then licensed to operate on the frequency of 1340 kilocycles at Flagstaff, but which had not been operating since September 30, 1949, reciting the history of Station KWRZ and concluding that the Commission was of the opinion that continued cessation of operation by a radio licensee, without the prior consent of the Commission, was a violation of § 3.71 of the Commission's rules, and constituted in fact a surrender of that license; and

It is ordered, That the Commission's action of December 8, 1949, declaring the license of KWRZ forfeited as of December 19, 1949, is vacated;

It is further ordered, That, pursuant to sections 307 (d) and 309 (a) of the Communications Act of 1934, as amended, the above-entitled applications are designated for hearing in a consolidated proceeding commencing at 10:00 a. m., on May 15, 1950, at Washington, D. C. upon the following issues:

3. To determine the areas and populations which receive primary service from Station KWRZ when in operation and the character of other broadcast services available to those areas and populations.

4. To determine the type and character of program service proposed to be rendered by Flagstaff Broadcasting Company and whether it would meet the requirements of the populations and areas proposed to be served.

5. To determine whether the operation of Flagstaff Broadcasting Company as proposed and the operation of Station KWRZ would involve objectionable interference each with the other.

6. To determine whether the operation of Flagstaff Broadcasting Company as proposed would involve objectionable interference with any existing broadcast stations or with the services proposed in any pending applications for broadcast facilities, and if so, the nature and extent thereof, the areas and populations affected thereby, and the availability of other broadcast service to such areas and populations.

7. To determine the objectionable interference, if any, to any other existing broadcast station resulting from the operation of Station KWRZ and, if so, the nature and extent thereof, the areas and populations affected thereby and the availability of other broadcast service to such areas and populations.

8. To determine whether the installation and operation of Flagstaff Broadcasting Company as proposed would be in compliance with the Commission's rules and Standards of Good Engineering Practice Concerning Standard Broadcast Stations.

9. To determine the legal, technical, financial and other qualifications of Grand Canyon Broadcasting Company (KWRZ) to continue to operate Station KWRZ and more particularly to obtain full information relating to:

(a) The circumstances leading up to and surrounding the cessation of operation of Station KWRZ on September 30, 1949.

(b) The contract, dated January 14, 1949 entered into between the licensee of Station KWRZ and Selwyn Kirby and Agnes McGillvra by virtue of which the licensee agreed to sell their interest in KWRZ and by virtue of which the buyers would take over as managers and receive profits and losses subsequent to February 1, 1949.

(c) The operation of Station KWRZ subsequent to February 1, 1949 by Selwyn Kirby and Agnes McGillyra.

(d) The authority and control exercised by Selwyn Kirby and Agnes McGillyra over the policies and operation of Station KWRZ from February 1, 1949 to date.

(f) The proposed program plans of Grand Canyon Broadcasting Company and whether they meet the requirements of the populations and areas proposed to be served.

(g) The plans of Grand Canyon Broadcasting Company as to the resumption of broadcasting over Station KWRZ.

(h) The circumstances leading up to the bankruptcy of James L. Stapleton on October 1, 1949 and the resultant effect of such bankruptcy on the future operation of Station KWRZ.

10. To determine whether the cessation of operation by Station KWRZ on or about September 30, 1949 was in violation of § 3.71 of the Commission's rules and regulations.

11. To determine whether the license for Station KWRZ, or the rights and responsibilities incident thereto, have been transferred, assigned or disposed of, directly or indirectly, without the consent of the Commission and in violation of section 310 (b) of the act.

12. To determine whether Station KWRZ has been operated by persons to whom no license has been issued by this Commission in violation of section 301 of the act.
